Brand New Book ***** Print on Demand *****.Excerpt from **A Critical Index of Films and Filmstrips in Conservation: Dealing With Renewable Resources, Non-Renewable Resources, Resources and People, and Ecology** Since 1948 we have screened and evaluated more than 6,000 films in the field of conservation for film festivals, magazines, and our own personal records. These films were designed as educational aids at the elementary, junior high, and high school levels. The screening of these productions has made it possible for us to select our own critical index of recommended films. It is not a very long list or an exclusive one. It is simply our list. As such we hope it will be of value to teachers as well as to organizations interested in natural and human resources.
