This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1846. Excerpt: . . . When tartar emetic dissolves in less than fifteen parts of water it probably contains neutral tartrate of potassa. It should always, if possible, be bought in crystals. ANTIMOMAL WINE. Antimonii Vinum, U. S. This should be recently prepared, because all solutions of tartar emetic are very liable to undergo spontaneous decomposition. It ought to be clear and without deposit. If it has undergone decomposition, it will contain no antimony; which may be proved by passing through a portion of it, diluted with water, a current of (sulphuretted hydrogen, or by adding to it some hydrosulphuret of ammonia. The presence of antimony is proved by the orange coloured precipitate which is produced upon the application of this test. ARGENTUM. --See SILVER. ARROW-ROOT. Maranta, U. S. A farinaceous substance obtained from the root of the Maranta arundinacea L. , a plant growing in the West Indies. When...
