British Museum (Natural History): Report of the Temperature Reached in Army Biscuits During Baking, Especially With Reference to the Destruction of the Imported Flour-Moth, Ephestia Kuhniiella Zeller (Classic Reprint) (Paperback)

By J Hartley Durrant

Forgotten Books, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from British Museum (Natural History): Report of the Temperature Reached in Army Biscuits During Baking, Especially With Reference to the Destruction of the Imported Flour-Moth, Ephestia Kuhniiella Zeller Linne, were found, and the beetles Palorus melinus Herbst, and Lathcticus oryzac Waterhouse, have not yet been met with by us. First, as to infestation: - Biscuit must become infested either (1) at home before packing, (2) during transit, or (3) in the country where stored. The biscuits are packed in tins, hermetically sealed, and enclosed in wooden cases to prevent injury; it was, therefore, obvious that if insects could be found within intact tins it would be demonstrated at once that infestation must have taken place in the factories, and not subsequently. With a view to determine the origin of infestation, sample tins were withdrawn from stocks at various stations abroad, for inspection at Woolwich by experts, and tins, -which after careful examination had been pronounced intact, were found to contain Ephestia kuhniella, etc., in various stages of development; thus proving conclusively that infestation had taken place in the factories before...
