

Experimental Behavior of Fatigued Single Stiffener Prseus Specimens

Filesize: 3.05 MB

Reviews

This composed publication is fantastic. This is certainly for all those who statte that there was not a well worth reading through. You will not truly feel monotony at whenever you want of your respective time (that's what catalogs are for regarding when you ask me).
(Prof. Mark Ratke Jr.)

EXPERIMENTAL BEHAVIOR OF FATIGUED SINGLE STIFFENER PRSEUS SPECIMENS

To get **Experimental Behavior of Fatigued Single Stiffener Prseus Specimens** eBook, make sure you click the link under and download the ebook or gain access to additional information which might be in conjunction with EXPERIMENTAL BEHAVIOR OF FATIGUED SINGLE STIFFENER PRSEUS SPECIMENS ebook.

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 34 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. NASA, the Air Force Research Laboratory and The Boeing Company have worked to develop new low-cost, light-weight composite structures for aircraft. A Pultruded Rod Stitched Efficient Unitized Structure (PRSEUS) concept has been developed which offers advantages over traditional metallic structure. In this concept a stitched carbon-epoxy material system has been developed with the potential for reducing the weight and cost of transport aircraft structure by eliminating fasteners, thereby reducing part count and labor. By adding unidirectional carbon rods to the top of stiffeners, the panel becomes more structurally efficient. This combination produces a more damage tolerant design. This document describes the results of experimentation on PRSEUS specimens loaded in unidirectional compression in fatigue and to failure. This item ships from La Vergne, TN. Paperback.
