## Joomla! 1.5 SEO: Improve the search engine friendliness of your web site

By Herbert-Jan van Dinther

Shroff Publishers/Packt, 2009. Softcover. Book Condition: New. 17 x 22 cm. Some sites always appear at the top of a search result while others fail to even make it to the top ten. Wouldn't you want to see your site on the first page of any search result? This is not easily feasible if you are depending solely on the marketing guys whom you hire for SEO. Joomla! SEO will help you to attract more visitors and improve the way you rank in search engines by giving you the techniques and knowledge to work your site into higher visitor numbers. It will help you to create and improve your site in an easy way. Joomla! is great, and you can make it perform even better by using the guidelines and ideas in this book. Search Engine Optimization is becoming a must for every web site. As the competition on the Internet grows you need to make sure your site is among the top results on the major search engines. More and more people use search engines to find the information they are looking for, so you need to make sure you show up in those search result pages to get...

### Reviews

*It is just one of the best publications. This can be for anyone who states that there was not a well worth reading through. Once you begin to read the book, it is extremely difficult to leave it before concluding.*
